Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed possible claim amendments to place the application in better form for allowance, pending an updated search. For example, in claim 22 the examiner proposed amending the claim to recite the H chain V region having the amino acid sequence of SEQ ID NO:9 and the L chain V region having the amino acid sequence of SEQ ID NO:54, rather than "an H chain V region having the amino acid sequence represented by SEQ ID NO:9" and "an L chain V region having the amino acid sequence represented by SEQ ID NO:54". Similar amendments were proposed for claims 32, 41, 48 and 65 as well as additional amendments to clarify the claimed subject matter.
